## Mines and Mining Stocks

# BIG STRIKES

Nevada Copper Western Opens Second Ledge in Its Deep Lower Tunnel.

ALSO TAPS SHOOT OPENED

IN THE UPPER TUNNEL WORK-INGS OF THE MINE.

Reference was made the other day to a telegram from Superintendent James Warden of the Western Nevada Copper company's properties at Yerington, in which he told of improved conditions at the mine without entering into sufficient detail to give a layman an idea of what he meant. The significance of the contents of the message was made plain in a letter that reached General Manager Maurice M. Johnson yesterday morning. It explained that the second ledge, for which the lower tunnel on the property has been headed for several months, had been reached and that samples of the ore had been forwarded to Mr. Johnson. It also stated that the drift sent out from the lower tunnel to intercept the great ore shoot that had been developed in the upper tunnel, had also made connections and that samples of the rock from there were sent with the samples from the face of the lower tunnel. detail to give a layman an idea of what

and that samples of the rock from the face were sent with the samples from the face of the lower tunnel.

"The letter," said Mr. Johnson during the day, "makes no reference to values and the probabilities are that no assays have been made. The principal thing to me in the statement is that the shoot developed above has proved its continuity to the tunnel below, a distance of more than 140 feet, and that the second ledge in the property, which crops on the opposite side of the hill from the one developed, has been reached just about in the distance that I hoped and believed it would be. Whether this second vein has been cut at a point where the ore is high grade or not is something not stated in the letter, but that is of little moment. We know that the ledge is a big and highly mineralized one and that it will prove as important as the other I have

#### COPPER STOCKS IN **BOSTON AND NEW YORK**

Following is the daily market comment of Paine, Webber & Co., Boston, together with the range of prices of copper stocks and other Boston listings in which the west is interested, as well as a similar report on New York curb transactions, a feature that has been added recently by James A. Pollock & Co. to its private wire service, and from which it is secured for use in this department of The Harald.

Boston, Oct. 23.-The big bankers in New York today used all their efforts to stop the panic which has been created among Morgan was said to be support banks. Morgan was said to be supported ing the market all around and loaning all his money at low rates to establish confidence. The Westinghouse failure was fidence. The Westinghouse failure was a great blow, and the market staggered all day and closed very nervous. We cannot say what tomorrow will develop but it looks now as if the situation would be saved if nothing new turns up.

### Metal Markets.

Silver, 61%c per ounce. Copper (casting), 12%c per pound. Copper (cathodes), 12%c per pound. Lead, \$4.75 per 100 pounds.

Union Assay Office.

Nebeker & Currie, Stock Brokers, 224 D. F. Walker Bldg. 'Phone 2904.

What Property's Earning Capacity Is.

"Allowing that the lower average yield is correct, and that the cost per ton is no lower than \$1.90, there will still remain a net profit of \$1.55 per ton of ore. This means that the 4,000,000 tons so far blocked out in the mine will yield a net profit of \$6,200,000, or better than \$6 per share on the stock with copper at 15 cents. The 10,000,000 tons of ore which is practically known to exist should, under similar conknown to exist should, under similar conditions, yield a profit of \$15,500,000, or from the Pioneer sampler yesterday.

\$15.50 per share. "It is known that Mr. Heinze and his associates have every confidence in the values which have been shown up in the Values which have been shown up in the Ohio Copper property, and also that they increased their holdings of the stock by buying it all the way up from \$1.50 to above \$5 per share. They firmly believe that their holdings will within a year or two be worth from \$15 to \$20 per share."

## VIRGIN REGION BOOSTED

was commissioned by the paper to go there and get at the facts. The story is a good one and, while much of the information of the jesseo Gold Mining company filed

capital into the enterprise and rushing machinery to the ground. On my way out to Lund I met twenty-three wagons heavily laden with drilling tools and supplies, and at Lund I found a dozen men waiting for more machinery to arrive and trying to hurry it along by wiring to the ship-

Lund was nothing but a railroad station and a freighters' corral, but by this time probably something has been done in the way of providing rough accommodations for travelers. C. D. Porter was there We didn't; ours were in our vaults. making arrangements for putting up some large tents which he had ordered and ex-

### Coal and Iron.

Oil is not the only undeveloped source of wealth in southwestern Utah. About twenty miles from Lund, in Iron county, are great deposits of iron ore of the finest quality, and from Cedar southward extend coal measures that have been known for many years and have been worked in for many years and have been worked in a small way by the people of the country to supply domestic needs.

Much of the iron ground is held by the Colorado Fuel & Iron company, and some

of the coal land has been acquired by Salt Lake capitalists. There is a mountain of almost solid iron,

easily accessible. The coal lies in hori-zontal planes, conforming to the strata of zontal planes, conforming to the strata of the plateaus and cropping in the faces of the cliffs. The seam varies in thickness from five feet at Cedar to eight feet at Kanarra, and further south lower and thicker seams appear. No prospecting has been done back of the cliffs on the plateaus, and therefore the extent of the coal fields is unknown. The coal is good for domestic use and for steam and it is used by blacksmiths in the country, but it is not coking coal.

t is not coking coal.

The chief visible inducement to railroad building in that region is the tonnage available in the coal and iron deposits. When the Salt Lake people go after the coal they may deem it expedient to follow it down to the Virgin, and pick up the oil.

### AT LOWER MAMMOTH. MAY DAY, UNCLE SAM

General Manager John Dern returned yesterday from a two days' visit to the Lower Mammoth, May Day and Uncle Sam properties at Tintic. He reports that the auxiliary shaft in the Lower Mam-moth has now reached the 1,800-foot level and that, as soon as the camp has been excavated and a station cut, explorations at that depth will begin and the shaft will be continued on down to the 1,909-foot level and deeper. Mr. Dern says that the mine looks fine and that a good tonnage of ore is being mined and shinned

shipped.

At the May Day and Uncle Sam everything was found in the pink of condition, with the usual tonnage rolling out from both mines. The properties, Mr. Dern said, never looked so well, notwithstanding the weakness of the shares in the market. He said that stockholders were the seals indees of the market value of the sole judges of the market value of their holdings and if they were content to sell at ruling prices while the mines were earning handsome interest on much higher prices and paying it regularly every month, it was certainly no fault of his

### DOINGS OF UNLISTED STOCKS ON EXCHANGE

Emma Copper was freely bought yesterday at 5½ to 6 cents and the latter price was bid for the stock up to the last minute. Mason Valley dropped 100 shares at \$1, Ohio Copper sold at \$2.52½ and \$2.55, while Uintah Treasure Hill was allowed

while Unitah Treasure Hill was anowed to go at 20 cents.
Quotations, without sales, were made on other stocks as follows: Bingham Standard copper, 21 to 24 cents; Copper Glance, 12 to 15 cents; Ely Witch, 40 to 50 cents; Newhouse, \$6 to \$6.50; Ohio-Kentucky, \$2 to \$2.25, and Thompson 10 to 15 cents. Honering was offered at 10 cents, while 19½ cents was bid for Golden Chain.

The Royal makes all kinds of bread in a clean bakery. As your grocer for it. The Crown Label on every loaf.

Boston Writer Figures Out George W. Morgan Sizes Up the Camp and Expresses Surprise at Its Merit.

mining or from the property to Nipton the Sar Decto, Los Anselse with the character of the series of sail Lake valleyed to the smelters of sail La

Ore and bullion settlements in this city yesterday, as reported by McCornick & Co., amounted to \$105,000, as follows: Silver, lead, gold and copper ores, \$15,000; base bullion, \$90,000.

#### Mining Notes.

Nine carloads of ore from Utah mines There was released from the Taylor & Brunton sampler yesterday nine carloads of ore from Utah, one from Nevada and one from Montana.

one from Montana.

L. A. Jeffs and Morris S. Duffield left for Idaho last night on a two weeks' trip into some of the mining regions of that state. Mr. Jeffs stated during the afternoon that he was not at liberty to say what they were out for, but added that there might be news in it later.

A local mine manager vesterder declined

A local mine manager yesterday declined to release information concerning a strike Sunday's Los Angeles Times contains a full-page illustrated write-up of the Virgin City oil district by Allen Kelly, who was commissioned by the paper to go as an attempt to hoost the price of the paper to go as an attempt to hoost the price of the paper to go as an attempt to hoost the price of the paper to go as an attempt to hoost the price of the paper to go as an attempt to hoost the price of the paper to go as an attempt to hoost the price of the paper to go as an attempt to hoost the price of the paper to go as an attempt to hoost the price of the paper to go as an attempt to hoost the price of the paper to go as a paper

The best evidence of the prospective officers are: J. H. Woodman, president; value of the oil field is the confidence of experienced operators who are putting Charles Woodward, treasurer.
